CFB Week 9 Matchup Report

Who is set up for a good game, and who is not, in all 56 games of Week 9, from Tuesday, Oct 27 through Saturday, Oct 31. After the game pages come two rankings across the whole slate: the best overall matchups and the players most likely to score a touchdown.

HOW TO READ THIS

Method. Each player's per-game production is compared with how the opposing defense ranks against his position (backs, receivers, tight ends) and against the pass. Ranks are out of 138; #1 is the stingiest defense.

Source. Every number comes from the CFB dashboard (rhyman7.github.io/cfb), with stats through Week 8 and lines as of Oct 26. The report is built automatically after each data update.

Lines. Every game has a spread and total in the data.

Injuries. Source: Covers.com team injury pages, plus news reports where noted, as of Oct 25, 10:07 AM ET. Players listed out, doubtful, on IR or suspended are left out of the picks and named in the game read; questionable players stay in, tagged Q. Players who missed their team's last game are also left out. Schedule strength is not adjusted for.
