COLLEGE FOOTBALL WEEK 10 · 2026

CFB Week 10 Matchup Report

Who is set up for a good game, and who is not, in all 63 games of Week 10, from Tuesday, Nov 3 through Saturday, Nov 7. After the game pages come two rankings across the whole slate: the best overall matchups and the players most likely to score a touchdown.

HOW TO READ THIS

Method. Each player's per-game production is compared with how the opposing defense ranks against his position (backs, receivers, tight ends) and against the pass. Ranks are out of 138; #1 is the stingiest defense.

Source. Every number comes from the CFB dashboard (rhyman7.github.io/cfb), with stats through Week 9 and lines as of Nov 1. The report is built automatically after each data update.

Lines. 24 of the 63 games have a spread and total so far; the rest show No line yet, and their team points in the TD ranking are estimates (est.).

Injuries. Source: Covers.com team injury pages, plus news reports where noted, as of Nov 1, 9:53 AM ET. Players listed out, doubtful, on IR or suspended are left out of the picks and named in the game read; questionable players stay in, tagged Q. Players who missed their team's last game are also left out. Schedule strength is not adjusted for.
