Every number is this game's projection from the value model, not a season average. Team volume comes from each side's pace, the projected score and the opponent; player lines are the team's volume times the player's share and efficiency, adjusted for this defense. Dial ranks are out of the 112 teams playing this week. Quarterback lines assume he starts. College football has no injury report: a regular who missed his team's last game is treated as out.
